

UN781E-2S

Direct drive lockstitch button holing sewing machine with auto foot lifter & swift and silent cutter

Compare with regular 781, now its efficiency has increased by 10% - 3 button holes more per min.

Product features

- Same as 1790 electronic button holing machine, its one step motor is for auto presser foot lifting.
- The other step motor is for driving the cutter meanwhile the machine keeps running at high speed without slowing down.
- Silent cutting, with no noise,
- Due to the high speed cutter, the machine is with 10% more efficient, as same as 1790.
- The machine has a thread break sensor, the presser foot keeps pressing on the cloth so that the holing process can be easily restarted.
- Since the stepper motor drives the cutter, it is easier to sew on thick materials, and the cutter will never get stuck.

Technical parameter

Model	UN781E-2S
Length of buttonholes	6.4-19.1mm for basic model UN781E
	6.4-25.4mm for UN782E; 6.4-31.8mm for UN783E
Max. speed	3,600sti/min
Needle bar stroke	34.6mm
Max. lift of the work clamp	12mm
Max. thickness to sew	4mm (with the work clamp lowered)
Number of stitches	54~345 (by gear-change method)
Needle type	DP*5 #11J
Lubrication	Automatic
Motor power	550W
G/N weight & volume	70/63kgs, 870^350^700mm=0.213cbm
Complete set	With stand & table 93kgs, 0.3cbm
