

GK562E-01CB-SUT

High speed direct drive flat bed interlock sewing machine with automatic electric thread trimmer & wiper and foot lifter

Integrated Mechatronic Design

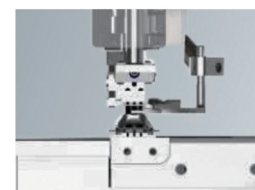

Direct-Drive Servo Motor

Stepping Motor Drive

Optional External Thread Take-up Cam

Optional ST / WP

Product features

Since 1993

- The integrated mechatronic design makes the machine compact, easy to operate, and neat in appearance.
- The direct-drive servo motor provides fast response, precise needle positioning, and stable operation.
- The stepping motor reduces noise during thread trimming and presser foot lifting.
- The machine is equipped with automatic thread trimming, presser foot lifting, speed adjustment, and needle positioning.
- The optional ST / WP device provides either automatic upper thread trimming or automatic thread wiping to improve convenience and sewing efficiency.

Technical Specifications

Max. speed	5,500 sti/min	Presser foot lifter	Automatic
Needle size	UY128GAS 11#	Needle positioning	Automatic
Needle & thread quantity	3-needle 5-thread / 2-needle 4-thread	Lubrication	Automatic
Stitch width	4.4mm	Power	550W
Different feed ratio	0.5-1.3mm	Power supply	AC 220V, 50/60Hz or 110V, 60Hz
Presser foot lift	5-6.3mm	G/N weight & volume	58/55kg, 670*465*660mm=0.2cbm
Thread cutting	Automatic	Complete set	With stand & table 86kg, 0.278cbm
