### Key Features

Since 1993

- Stepper motor-driven thread trimming and presser foot lifting for low noise, fast response, and shorter thread ends.
- Digitally adjustable presser foot lift height with slight automatic lifting to reduce noise and improve fabric handling.
- Four operating modes — manual, semi-automatic, free sewing, and fully automatic — to meet diverse production needs.
- Multiple fabric modes for wide adaptability to different materials.
- High-durability components with DLC / black-diamond coating on key parts for excellent wear resistance at high speed and improved performance on thick fabrics.
- Through-shaft design provides lighter torque and quicker machine response.
- Multiple photoelectric sensors ensure smooth, stable feeding without damaging the fabric.
- USB port for system upgrades and mobile device charging.
- Unified appearance with an ergonomic, easy-to-handle design.
